REMARKS

In addition to amended claims 2-5, Applicants submits herewith additional independent claims 6 and 7. Reexamination and reconsideration of claims 2-7 are respectfully requested.

Regarding independent claim 6, this claim is similar to claim 1 but does not include the "roller features" of claim 1.

New independent claim 7 corresponds to original claim 2 but without reference to the "roller features" and including recesses formed in the slide tray and disk tray to form a closed space when the disk tray is urged against the slide tray. These recesses are clearly illustrated in Figure 5 about the rotational axis of the disk tray.

As these features are not found in either KUROSU or LIU, it is respectfully submitted that claims 6 and 7 are also in condition for allowance. An early notice to that effect is solicited.

In view of the foregoing, Applicants submit claims 2-7 are in condition for allowance.
